

Protecting sea bass

Monthly catch limits and closed area

Sea bass a stock in decline

Below this limit, reproductive capacity risks being severely inhibited

We are witnessing a rapid decline in sea bass stocks that could lead to a collapse

Source: ICES 2014, advice for seabass in southern North Sea, Channel, Celtic Sea, Irish Sea

Monthly catch limits and closed area

Maximum catch of sea bass permitted per vessel per calendar month (in kg)

Area closed for commercial fishing
